PROFESSIONAL SUMMARY

Information Technology graduate with a specialization in Data Science and Microsoft Certified Azure Fundamentals (AZ-900). Skilled in SQL, Python (Pandas, NumPy), Excel, and Power BI, with knowledge of data analysis, data visualization, data cleaning, and business reporting. Strong analytical and problem-solving skills with the ability to transform data into meaningful insights to support data-driven decision-making.

WORK EXPERIENCE

Training And Internship in Data Analytics | Techgen Institute | Apr 2026 – Present

- Analyzed datasets using SQL, Python, Excel, and Power BI to generate business insights.
- Created interactive dashboards to visualize KPIs and support decision-making.
- Performed data cleaning and transformation using SQL and Python.
- Developed analytical solutions through real-world case studies and projects.

IT Engineer | DayalStreet Financial Services | Aug 2024 – Feb 2025

- Analyzed website traffic and user engagement using Google Analytics to identify performance trends.
- Developed dashboards and reports to monitor website performance and SEO metrics.
- Optimized website performance, reducing page load time by 40%.
- Managed CRM data and developed internal tools using Python and Django.
- Maintained and enhanced 7+ WordPress websites.

SKILLS

- Programming: Python, SQL
- Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning
- Data Visualization: Power BI, Microsoft Excel (Pivot Tables, XLOOKUP), Matplotlib, Seaborn
- Databases: SQL Joins, Aggregate Functions, Window Functions, Subqueries
- Cloud: Microsoft Azure Fundamentals (AZ-900),
- Tools: Git, GitHub, Jupyter Notebook, MySQL Workbench

PROJECTS

Financial Fraud Detection Analysis

Tech Stack: SQL (MySQL), Python, Excel

- Designed a relational database to analyze financial transaction data.
- Used SQL joins, self joins, aggregate functions, and window functions to identify suspicious transaction patterns.
- Generated analytical insights on rapid transactions and geographic anomalies to support fraud detection..

Sales Analytics Dashboard

Tech Stack: Power BI, Excel, SQL

- Built an interactive dashboard to analyze sales, profit, and KPI trends.
- Performed data transformation using Power Query and created DAX measures.
- Delivered business insights through interactive visualizations and reports.

Customer Churn Analysis

Tech Stack: Python, Pandas, NumPy, SQL, Matplotlib, Seaborn

- Performed data cleaning and exploratory data analysis (EDA) on customer datasets.
- Identified factors influencing customer churn using statistical analysis and visualizations.
- Built a predictive model and evaluated performance using machine learning techniques.

EDUCATION

Finolex Academy Of Management and Technology | B.E in Information Technology | 2020 - 2024

CGPA: 7.84/10

PUBLICATIONS

Virtual Stylist: Image-Based Fashion Recommendation System (IEEE AllIoT 2024)

- Research paper published in IEEE Xplore on computer vision and image processing for virtual clothing recommendations.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Data Visualization Job Simulation – Forage
- Agentic AI Fundamentals – Databricks
- Generative AI – LinkedIn Learning
